Product Suitability

The Aviva Local Councils Insurance Policy has been designed to meet the demands and needs of Local Town and Parish Councils domiciled in the UK.

You should read the Policy Wording and Schedule to ensure the product cover and limits are suitable for your needs.

Our product offering is based upon a single insurer, and our significant knowledge of the insurance market. We are operating under a delegated authority scheme which means we are working on behalf of the insurer.

Optional ranges of cover:

The Statement of Fact identifies the areas of cover available, and there is flexibility to choose those which are relevant to your requirements. Please do not hesitate to contact us to discuss these options in more detail.
